## Palo Alto County Authorities Investigate Incident In Which A Crop Dusting Plane Was Shot At

Tue 8-4-2015

(Emmetsburg)-- Palo Alto county authorities say no one was hurt when a crop dusting plane was shot at while spraying a field Friday morning.

Authorities say the incident took place in the southwest corner of section 25 of Fairfield Township.

The plane, owned by Steier Ag Aviation of Whittemore, was struck on the right wing flap. Authorities say the pilot, who's name hasn't been released, was able to safely land the plane.

As part of their investigation, Palo Alto county authorities say they were able to identify a possible suspect. A search warrant was then obtained and executed on some property on 390th Street in Palo Alto county. Several items were seized and are currently being analyzed.

Authorities say no arrests have been made yet in the case, which is still under investigation. The FBI, Kossuth County Sheriff's Office and the Algona Police Department have also joined the investigation.
