

Attachment M – Environmental Data Sheet

ENVIRONMENTAL DATA SHEET For Local Systems Federal-aid Projects

Please Note: Before completing this form, refer to the [Environmental Data Sheet Instructions](#) located in Index No. 6 of the Project Development Information Packet (referred to herein as the Packet).

General Information:

Date Submitted: _____ First Submittal Revised Submittal
County: _____ City: _____
Project Number: _____

A. Recreational Areas or Wildlife Refuges: If required by Concept Statement question 9.f, answer the following questions:

- 1 List and briefly describe all of the parks, recreational areas, playgrounds, trails, greenbelts, or wildlife refuges that meet this criteria:

	Description (include name of agency with jurisdiction)	Total property area (acres)
a.		
b.		
c.		
d.		
e.		

2 Will any part of the identified properties be acquired as permanent right-of-way? Yes No

If yes, list the properties and specifically describe: what part will be acquired (including approximate area), the anticipated severity of impacts, why the property can't be avoided, and the steps that will be taken to minimize or mitigate the impacts. If no, go to A.3

3 a. Will any part of the identified properties be acquired as a temporary easement? Yes No

If yes, answer the following questions. If no, go to A.4.

b Will the property sustain permanent adverse physical impacts? Yes No

c. Will there be a major amount of work done within the easement? Yes No

d After the work is complete, will the property be significantly changed from its original condition? Yes No

e. If the answer to questions A.3.b through A.3.d above are all no, is the agency with jurisdiction over the property (if different from the LPA) in agreement with all of these determinations? Yes No N/A

If yes, attach documentation from the agency with jurisdiction (if different from the LPA) and go to A.4. Otherwise, go the next question.

f. For any "yes" answers to questions A.3.b through A.3.d above, list the properties and specifically describe: what part will be acquired (including approximate area), the anticipated severity of impacts, why the property can't be avoided, and the steps that will be taken to minimize or mitigate the impacts.

- 4 Indicate if any of the identified properties will be impacted in any of the following ways (check all that apply):
- Noise impacts Aesthetic impacts Reduced access Vibration Ecological intrusion

For any impacts checked above, list the impacted properties and specifically describe: the anticipated severity of impacts, why the property can't be avoided, and the steps that will be taken to minimize or mitigate the impacts.

- 5 Were any of the identified properties originally acquired or developed with Federal Land and Water Conservation Act funds? Yes No If yes, refer to the Environmental Data Sheet Instructions for more information.

B. Threatened or Endangered Species: If required by Concept Statement question 9.k, answer the following questions:

1. In the space below, list the threatened or endangered species and the location(s) of its habitat that are in proximity to the project.

- a. _____
- b. _____
- c. _____
- d. _____

2. Will any of the identified species or their habitat be affected by the project? Yes No

If yes, in the space below list the affected species and / or habitat and specifically describe: the anticipated severity of effects, why the species or habitat can't be avoided, and the steps that will be taken to minimize or mitigate the effects.
