

## **7148 Fillet for Non-Paved Entrances or Side Roads**

(This section last updated 01-15-14)

The fillet width,  $F$ , is normally determined by survey or during field exam. In the case where it is not and no additional information is available, the following widths may be assumed:

Type	Fillet Width
Residential Entrance	40 feet
Farm Entrance	60 feet
Commercial Entrance	80 feet
Side Roads	100 feet

For entrances, the fillet length,  $E$ , is 4 feet minimum.
