

Hot Mix Asphalt  
Widening on Existing  
Pavement Without Curb

Hot Mix Asphalt  
Widening on Existing  
Pavement With Curb

'W' and 'T' shall be as specified as part of the individual project plans. Dimensions may vary for superelevated curves or at locations specifically designated by the Engineer.

Any asphalt materials excavated shall be handled as detailed elsewhere in the project plans.

Special shaping of widening units through bridge approach sections shall be done at the direction of the Engineer.

Excavation in excess of that indicated shall be considered incidental to other work on the project.

Special Backfill, as indicated, shall be placed only at locations where specifically required by the Engineer. Any such Special Backfill placed shall be paid for as "Extra Work" as per Article 1109.03 of the Standard Specifications.

- ① Estimated for two (2) applications of tack coat. Priming of subgrade or finished base is not required.
- ② Quantities indicated are for design purposes and may be adjusted at time of construction when so directed by the Engineer.
- ③ 6" Special backfill required when widening unit is part of the proposed traffic lane or when noted in project plans.

Design Quantities per side per station ②
