- Work Area

When the Average Daily Traffic (ADT) exceeds 20,000 vehicles per day or when a traffic queue extends beyond the advanced signing, place RIGHT/LEFT LANE CLOSED 4 MILES and RIGHT/LEFT LANE CLOSED 2 MILES signs (W20-5) on both sides of the roadway 4 miles and 2 miles in advance of the lane closure, respectively, as appropriate.

For roadways with a posted speed limit of 60 mph or greater before road work:
Place SPEED LIMIT 55 signs prior to the lane closure as shown.

When the length of closure is greater than 1 mile, install SPEED LIMIT 55 signs in the closed lane at 1-mile intervals.

Remove or cover all existing signs that conflict with 55 mph speed limit while 55 mph speed limit is in effect.

Where there is a lane line drop-off or rise, do not allow traffic to cross over the drop-off or rise; except for ramp locations where a BUMP (W8-1) sign is placed.

Drop-offs greater than a nominal 4 inches are not allowed during non-working hours.

- 1 Place two drums in the closed lane at 1000-foot intervals. Where core outs, holes, or uncured concrete exists within the work area, place an additional pair of drums just ahead of each.
- 2 Refer to SI-881 for sign details.
- 3 Where side road speed limit is 40 mph or less, a distance of 200 feet is allowed.
- 4 Place a ROAD WORK AHEAD sign on the opposite side of the intersection in a similar location.
