APPROVED TREATED WOOD SUPPLIERS

APPROVAL OF WOOD SUPPLIERS

Treated wood suppliers must be approved prior to supplying wood for a project. To be considered for approval the supplier must submit the following:

1. A signed and dated letter requesting approval to supply untreated or treated timber, lumber, piles, posts and signposts.
2. Suppliers with warehouse stock: a copy of procedures the supplier has established to maintain record of approved stock of wood material. The Office of Materials of the Iowa DOT and the appropriate District Materials Office will schedule an initial inspection of the supplier's facilities and review material handling procedures.
3. Suppliers without warehouse stock: A detailed description of the supplier's procedures for maintaining a record of material shipped directly to projects from the source.
4. Sources of treated wood that will be handled by the company and supplied to Iowa DOT projects.
5. Provide traceability of shipments, lots, and charges of each treatment.
6. Upon satisfactory review of the documents submitted and other additional requirements, the supplier will be placed on the approved list in Appendix A.
7. The District Materials Engineer shall monitor untreated and treated wood material at a supplier's yard or through shipments to sites.
8. **ALL** approved suppliers must notify the respective District Materials Engineer of any and all shipments of treated wood materials handled by the supplier, whether through warehouse stock or direct shipments to a contractor's yard or a project site.
