

Minimum Requirements for Posting of RV Friendly Symbols on Logo Signs

1. Roadway access and egress must be hard surface, free of potholes and need to be at least 12 feet wide with a minimum swing radius of 50 feet to enter and exit the facility.
2. Roadway access, egress, and parking facilities must be free of any electrical wires, tree branches, or other obstructions up to 14 feet above the surface.
3. Facilities requiring short-term parking such as restaurants or tourist attractions, are required to have 2 or more spaces that are 12 feet wide and 65 feet long with a swing radius of 50 feet to enter and exit the spaces.
4. Fueling facilities with canopies are required to have a 14-foot clearance, and those selling diesel fuel are required to have pumps with non-commercial nozzles.
5. Fueling facilities must allow for pull-through with swing radius of 50 feet.
6. For campgrounds, 2 or more spaces that are 18 feet wide and 45 feet long are required.
7. Businesses must also post directional signing on their sites, as needed, to those RV friendly parking spaces and other on-site RV friendly services, so that the motorist is given additional guidance upon leaving the public highway and entering the business establishment's property.
8. The design of the RV Friendly symbol will be yellow with black letter and border, 10" in diameter with 6" letter height, and mounted in the lower right hand corner (approx. 10") of the logo sign for that business. The symbols are posted on mainline signs only. **IF YOU DO NOT HAVE TEN INCHES OF FREE SPACE FROM THE BOTTOM AND RIGHT EDGE OF YOUR BUSINESS SIGN, THE RV SYMBOL WILL NOT BE INSTALLED.**
9. Iowa DOT will assess a \$15 per symbol fee for materials and installation, if added at the time of initial logo installation. The fee to add the RV symbols to existing logo signs (already posted) is \$50 per symbol.

I hereby certify that my business meets the above requirements, and will continue to meet these requirements as long as the RV Symbol is posted on the logo sign.
