SUBJECT: Safety Workshops for Local Agencies

DATE: August 7, 2008

Again this year, the Iowa Department of Transportation is sponsoring a series of workshops around the state to address safety issues of particular interest to local agencies. Planned topics will include low cost safety studies, introduction on a new Best Practices Guide for Local Road Safety, low cost safety improvements, a crash analysis demonstration and much more. Both rural and urban sessions will be offered and as in the past these workshops will be offered at no cost to participants.

Selected dates and sites for these workshops are:

October 21st and 22nd at the Quality Inn in Ames (rural and urban sessions)
October 30th at the Carrollton Inn in Carroll (rural session)
November 18th and 19th at the Quality Inn in Iowa City (rural and urban sessions)

Please mark the dates of a workshop most convenient to you and plan to join us for one of these sessions. The registration brochure will be distributed in a few weeks.

Please do not hit the reply option in your e-mail note.

Thanks
