CC: District Local Systems Engineers, Service Bureau
and Office of Local Systems

FROM: Office of Local Systems

SUBJECT: Bridge Inspection Training

DATE: February 26, 2008

Please take the time to consider taking the above mentioned course. As a county engineer or public works director, you need to be prepared to have a plan of action or countermeasures in hand when your bridge inspection report indicates a scour critical situation exists. This course provides information on the development of the "Plan of Action" and "Countermeasures". The brochure and registration information for the course can be found at the following website
<http://www.ucs.iastate.edu/mnet/bridge/home.html>.
Openings still exist in the course.

If you have questions on this information, please do not hesitate to contact Jim Cable at 515-292-4460 or jkcable@iastate.edu

Please do not hit the reply option in your e-mail note.

Thanks,

Gail Nordholm
