CC: District Local Systems Engineers, Service Bureau
and Office of Local Systems

FROM: Office of Local Systems

SUBJECT: Multi-Discipline Safety Planning Forum, March 10-11, 2008

DATE: February 20, 2008

This is a follow-up to the notice we sent out a week ago. You can view a detailed list of the topics that will be covered during the forum and the speakers for each topic by clicking on this [Detailed Agenda](#) link.

This is an excellent opportunity for public works officials to interact with planning organizations and other transportation disciplines to facilitate safety improvements to your transportation systems. Topics of interest are planned for all transportation disciplines. The agenda details will assist you in determining whether you want to attend both days or pick a day that includes the areas of your primary interest.

The [Registration Form](#) includes an area for you to indicate which day(s) you plan to attend. Because the space is limited to 150 participants, early registration is recommended. This also helps plan for the breaks and luncheons.

Please do not hit the reply option in your e-mail note.

Thanks

LeRoy H. Bergmann
