**SUBJECT:** Safety Forum – Save the Date, March 10-11, 2008

**DATE:** January 7, 2008

The Office of Systems Planning at the Iowa DOT is presenting a multi-modal transportation safety planning forum. The theme of the safety planning forum is “Putting the Pieces Together” and places an emphasis on including input from a variety of sources in the decision processes involving transportation safety planning. In addition to Metropolitan Planning Organizations (MPOs), Regional Planning Affiliations (RPAs), and county engineers, the Iowa DOT is inviting law enforcement agencies and city planning staffs because they are routinely involved in local transportation safety decisions.

We would like to invite someone from your local agency to participate in this Safety Forum. Here is the link for some [preliminary information](#) giving the date and location of the Forum which is provided at no cost. Additional information covering on-line registration, the agenda, and motel reservation will be sent to you in the near future. If you have any questions you may contact Roger Larson at 515-239-1772.

## Multi-Modal Safety Conscious Planning Forum

*Putting the Pieces Together*

**March 10-11, 2008**

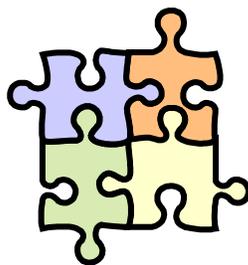

**Gateway Hotel and Convention Center  
Ames, Iowa**

**Sponsored by Iowa DOT  
Office of Systems Planning**

*This is the second safety conscious planning forum being held in Iowa. The previous session's primary focus areas were education, awareness, planning tools, multidisciplinary approaches, and total integration.*

*Now is the time to step back and review how well we have been doing, as well as where do we go from here. "Putting the Pieces Together" will focus on the multi-disciplinary sequential steps necessary for effective and permanent incorporation of safety into the planning process.*

**Additional information covering on-line registration, the agenda, and motel reservations will be sent to you soon.**
