CC: District Local Systems Engineers, Service Bureau
and Office of Local Systems

FROM: Office of Local Systems

SUBJECT: **IMPORTANT INFORMATION** for work in
Union Pacific Railroad Right-of-Way

DATE: January 15, 2008

The Developmental Specifications (DS), discussed in I.M. 3.670 Work on Railroad Right-of-Way, for maintenance or construction projects on the Union Pacific Railroad (UPRR) Right-of-Way have been developed and are posted on the DOT Office of Specifications web page. The following link provides direct access to their location.

http://www.iowadot.gov/specifications/Developmental_Specs.htm

The current specifications are:
DS-01112 – Construction Work on Railroad Right-of Way with A+B for Bidding Railroad Flaggers (Union Pacific Railroad)
DS-01113 – Maintenance Work on Railroad Right-of-Way (Union Pacific Railroad)

If you had been provided an earlier version of the specifications from either Donna Buchwald or me, please discard it because it is obsolete and the railroad will not accept a submittal unless current information is provided.

IMPORTANT - The above specifications are ONLY for maintenance or construction in the UPRR Right-of-Way. If your project involves another railroad, PLEASE contact Donna, 515.239.1051 or me, 515.239.1506 for assistance.

Please do not hit the reply option in your e-mail note.

Thanks

LeRoy H. Bergmann
