and Office of Local Systems

**FROM:** Office of Local Systems

**SUBJECT:** 2008 Emergency Relief Program (IA-0801) Event Dates

**DATE:** July 23, 2008

We have been advised by FHWA that the following dates determine the time periods for Iowa's 2008 Emergency Relief Program, IA-0801.

May 25, 2008 is the beginning date of the event period. Based on FHWA review of stream data in Iowa, July 14, 2008 is the "End of the Event" date and the beginning of the 180-day period when you can be reimbursed 100% for emergency repairs. January 10, 2009 is the end of the 180-day period. All eligible repair work, emergency or permanent restoration, on or after this date will be reimbursed at the normal pro rata share.

Also, please remember that projects for permanent repairs that have not advanced to construction obligation by the end of the second fiscal year following the year in which the disaster occurred cannot be authorized. In other words, the last regularly scheduled DOT letting for 2008 ER permanent repair projects will be October of 2010.

**Please do not hit the reply option in your e-mail note.**
