To clarify the bid item 2529-0000010 Railroad Insurance Provisions has been created to be used in situations involving all Railroads other than the UPRR and the BSNFRR. The UPRR has a designated item of "2529-0000100 UPRR Insurance Provisions" and the BSNFRR has the designated item of "2529-0000105 BSNFRR Insurance Provisions" these items are to be used for each railroad respectively.

These insurance bid items are to only be used when a contract document requires insurance above those required by Division 11 of the Standard Specifications. The insurance limits specified in Division 11 of the Standard Specifications are the limits allowed by the Federal law; therefore, when these bid items are required on a project, they will be non-participating.
