

NOTICE:
**This Instructional Memorandum (I.M.) to Local Public Agencies
is under construction.**

I.M. 2.080, Inactive Obligations, is not yet complete. However, the current policy regarding inactive obligations is summarized in the Office of Local Systems mailing sent on November 29, 2011. This mailing can be accessed from the Office of Local Systems [Mailings Search](#) page.

The new Instructional Memorandums to Local Public Agencies, together with new Federal-aid Project Development Guide, are being developed to replace the existing Project Development Information Packet and the County Engineers I.M.s. This redirect page will remain in place until the new I.M. is complete.
