

## Iowa Code Chapters or Sections included in the 2010 Iowa Acts for DOT

The Iowa Code chapters or sections identified below impact the DOT, counties or transportation. An enrolled bill that amends one or more of these chapters or sections is indexed by the Code sections the bill amends.

Other bills or sections of bills that are of interest but which do not amend one of the listed chapters or sections are indexed as *see bill*. The see bill entries are arranged in bill-number order. A bill may be of interest because it is transportation-related, it specifies the DOT or the DOT director by name, or it applies to all state agencies or to all state employees.

**Note:** See bill\*--There are two see bills with an asterisk located in the index by Code section document: House File 2531, section 71 and Senate File 2237, section 180. These two sections make numerous Code editor directives to various Code sections. These are indexed under see bill instead of the individual Code section amended.
