

## **Proposal 14646 – North Des Moines Hoop Building Questions and Responses Set 1**

**Q1) Hoop Building wall height.**

**R1) See addendum 1.**

**Q2) Does the shop drawings of the structure and walls need to be signed and stamped by and engineer?**

**R1) Yes**

**Q3) Do you have anyone in mind for the pre-cast?**

**R3) In the specification Section 03 4100.2.1.A. there is a list of Pre-cast manufacturers. PDM Precast in Des Moines is included in that list.**

**Q4) Will the power line need to be removed?**

**R4) The power and pole will be removed prior to your work on the Hoop building.**

### **Comments**

**Storage of equipment and materials, an open area will be available for you.**

**You will need to coordinate work with the awarded General contractor of the North Des Moines Maintenance Facility project. The letting for that proposal will be on 7/22/2015**
