

**Proposal 15311 Motor Vehicle Enforcement Weigh Station Sidewalk
Replacement – Brandon N & S Scales
Questions and Responses Set 1**

Q1) Is there a special concrete mix?

R1) No, just what is specified in the proposal.

Q2) Does the facility need to have barricades?

R2) Yes, the facility will remain open and staff will need to have access to the building. Access can be from the platform scale entry door side since we are not doing work at that location.
