

Proposal 15581
Ames Complex Restroom Remodels for buildings 5 & 6
Questions and Responses Set 2

Q1) Are there 18" Vertical Grab bars being used?

R1) At this time we aren't required to have them.

Q2) Do we need to get City Building Permits?

R2) No, but a state building code inspection for framing and finish will be required as well as a separate state electrical permit

Q3) What sort of inspections will be required?

R3) Electrical and framing

Q4) Building 5 will the ceiling be cleared of asbestos?

R4) DOT will test and do necessary abatement if needed.

Q5) Do you want plastic partitions?

R5) Yes, solid plastic.

Q6) Building 5, are you reusing the doors? R6) Yes

Q7) Do want commercial grade hinges put back in bldg. 5 Restroom?

R7) Yes

Q8) Where can we access the buildings and part.

R8) On the east side of the building you can put a dumpster, park and access the building if you are awarded the project.

Q9) What are the best times to trash out?

R9) Morning 7:00a.m, Noon and after 3:30p.m

Q10) What are the hours of operation?

R10) M- F 7:00a.m.-3:30p.m. Unless requested differently and with prior approval and weekend work can be arranged if something needs shut down.

Q11) Building 6 there is electricity involved?

R11) An addendum will be coming for this.

Q12) Why do you need an push button operator on the door?

R12) DOT has staff that will need it.

Q13) When can work begin?

R13) Once we have a fully signed contract we will begin with building 5 and then 6 we anticipate February or March it will depend on how quickly the contract can be executed.
