

Proposal 15702
Ames DOT Warehouse Dock Expansion
Questions and Responses Set 3

Q1) I have a question on drawing A-2R. Please see the screen shot at the bottom. At south east corner of drawing A-2R, different terminologies were used for "Precast Panels". I believe all the precast panels for the south expansion should be new, and the old south wall will remain, correct? Please clarify the "RELOCATE EXISTING PRECAST PANELS". Thanks!

R1 All wall panels are to be new panels on the south side addition. Ignore the note indicating "relocate existing precast panels". This note was supposed to be turned off on the drawings.
