

Date: 5/26/16

**ADDENDUM NO. 2**  
to the  
**Iowa Department of Transportation**  
**Proposal 15971**  
**For Permanent Dynamic Message Signs using Full Matrix and Full Color LED Technology**  
**Letting Date: June 2, 2016**

**Notice To Bidders:**

This Addendum is issued to incorporate the following additions, deletions, corrections, and/or clarifications to the terms or specifications and shall hereby be considered a part of the final contract documents. This Addendum shall supersede, modify and/or change all statements to the contrary in the bid proposal and shall take precedence over previous terms or specifications.

**Change:**

Section 3.5.3 (C), last sentence, reads as follows: *Where DC Power is provided to the sign, one additional 2" Meyers hub is required to separate the DC from AC Power.*

This sentence is being changed to now read as follows: *Where DC power is provided to the sign from a ground cabinet, additional Meyers hubs no smaller than 2" shall be required to separate the DC from AC power. The manufacturer shall size the conduit connections and openings accordingly.*

**Clarification:**

Section 3.5.3 (C) *The distance from the ground cabinet to the DMS is 200 feet or less for the initial order of DMS indicated in the bid tab. Responders should include the power supplies, controllers, cabling and other incidental hardware based on this distance provided."*

All Bidders must sign and return this Addendum for the bid opportunity referenced above. Failure to do so may subject the Bidder to disqualification. If a bid response has already been submitted, this Addendum shall be signed and emailed or faxed to the Purchasing Section prior to the scheduled Letting Date.
