Lawn & Ground Services for Rest Areas and Weigh Scale/Parking Only Questions and Responses Set 2

- Q1) The contractor is required to mulch a 3' radius around the trees. Is the 3' radius from the edge of the tree or the center of the tree?
R1) edge
- Q2) On the dike or fore slope of the lagoons the contractor is required to remove weeds or grass. What is the approved list of chemicals for chemical treatment?
R2) Rodeo or an equivalent aquatic chemical
- Q3) What is the frequency of spraying for weeds in the lagoon areas?
R3) The DOT will do the initial spraying. If weeds continue after the DOT has sprayed it would be the contractors responsibility. Not likely more than twice
- Q4) When does the IA DOT spray the dike or fore slope of the lagoon areas?
R4) They will be sprayed in the spring
- Q5) What is the required width of the outlying trails to be mow at?
R5) Typically it is a mower width out and back
- Q6) How many linear feet of edging is required at the Story City South Bound rest area?
R6) Not available. Site visit would be most effective method to determine
