

September 13, 2016

ADDENDUM NO. 2
to the
Iowa Department of Transportation
Proposal No. 17311
For
Hydraulic Cylinders
Revised Letting Date: September 16, 2016
~~**Letting Date: September 14, 2016**~~

Notice To Bidders:

This Addendum is issued to incorporate the following additions, deletions, corrections, and/or clarifications to the terms or specifications and shall hereby be considered a part of the final contract documents. This Addendum shall supersede, modify and/or change all statements to the contrary in the bid proposal and shall take precedence over previous terms or specifications.

CHANGE:

- **Letting date is moved to September 16, 2016 due to the following clarifications.**

CORRECTION:

- Item 2.1 Bore size should have read 3.13 inches.
- Item 4.1 Bore size should have read 3.5 inches.

Question on 4.1 - Also the print is showing some sort of bracket on the case. The print I have did not come thru very well and we cannot tell what it is other than it's ½ thick. Can we get a drawing or sketch of this?

Answer - This is a ring and not a bracket that fits around the cylinder. See attachment for dimensions. This cylinder fits inside another housing on a newer ice blade and the ring helps center it (see picture attachment).

All Bidders must sign and return this Addendum for the bid opportunity referenced above. Failure to do so may subject the Bidder to disqualification. If a bid response has already been submitted, this Addendum shall be signed and emailed or faxed to the Purchasing Section prior to the scheduled Letting Date.
