This Price Trend report is based on the 'Price Trends for Federal-Aid Highway Construction' published by the U.S. Department of Transportation, Federal Highway Administration, and compares the Iowa Composite Index (Federal-Aid and Non-Federal-Aid contracts) with the FHWA Composite Index (Federal-Aid contracts over \$500,000). Publication of the FHWA Composite Index was discontinued after 2006.

The 1987 BASE figures are weighted averages of the six indicator items on awarded contracts let through the Iowa Department of Transportation, Office of Contracts, for calendar years 1986, 1987, and 1988. For all Calendar Years (including Calendar Year 1987) the Average Awarded Prices are actual figures for that Calendar Year and the Iowa Composite Indexes are calculated from the 1987 BASE.
