lowa Department of Transportation

## LOG OF PILING DRIVEN BY FORMULA

Project No.		Pile (Type and Size)	
County			(Wood, Steel or Concrete)
Design No.		Hammer (Type & Model)	
Contractor			(Gravity or Diesel manufacturer and model)
Iowa DOT Hammer No.		Foundation Description	
Gross Weight of Hammer	Effective Wt.		(North abut, Pier 1, etc.)
Weight of Driving Parts		Station of Foundation C.L.	
Weight of Anvil			
Weight of Cap	Cap No.	Formula Used	
Weight of Pile			
Plan Pile Length		Plan Driving Resistance	

Sketch foundation below, number each pile and show steel H-pile orientation as installed. Note battered piles on sketch, and give the amount of batter. Place name and certificate number of welder below if welding was necessary. Forward 2 copies to the lowa DOT District Office upon completion of each foundation. Note on drawing which pile has been logged.

Batter Piling		in the	in the direction shown.
