STATE PARKS - RECREATION

The Iowa State Conservation Commission has jurisdiction over ninety-one state parks and preserves constituting more than 28,000 acres. There are also seven state forest areas and one forest nursery totaling over 13,000 acres. Iowa has seventy-two natural lakes and twenty-four artificial lakes with a total of 44,384 acres, 200 miles of inland meandering streams, and 600 miles of boundary streams which are available for the enjoyment of the public. Most state parks and preserve areas have parking and picnic facilities, in addition to other conveniences for park visitors. Many provide overnight camping. Currently, nearly six and one half million persons are visiting the Iowa state parks annually.

In all areas, the natural flora and fauna are encouraged, and every effort is made to keep the larger portion of the areas in a natural state. In monument areas, preservation and restoration work is being done in an effort to hold and enhance our state's historical background. The natural beauty of the state's native flowers, topography and landscape may be enjoyed by all our citizens and visitors in Iowa's excellent state park system.
